President's Letter

Pat Kennelly, SBA President

It has been a busy and exciting year for the Stockbridge Bowl Association (SBA) and for me personally, in my first year as president, as we celebrate 75 years of stewardship of the Stockbridge Bowl.

We have met with the Massachusetts Department of Environmental Protection (MA DEP) as well as the Natural Heritage and Endangered Species Program as we continue to refine the protocols for our test of the narrow spectrum herbicide Fluridone as a control for invasive Eurasian Watermilfoil.

In late May, we utilized biologists and underwater cameras to identify emerging beds of milfoil in order to define the required test and control plots.

Additionally, we hired a MA DEP approved ecologist to modify the procedure to monitor the aquatic plants in the test sites. If plots can be successfully identified and the plants counted this summer, we would apply the herbicide in the early spring of 2023.

We would then do a recount of plants in the test areas in the summer to 2024 to measure the re-population of native species to the areas formerly covered in milfoil.

If the re-population meets MA DEP criteria, we would be allowed to do a full lake treatment with Fluridone.

At the same time, we are exploring substituting for Fluridone a newer herbicide, ProCellaCOR, which would allow us to do effective spot treatment of milfoil; this is our preferred outcome.

We have also partnered with the Town of Stockbridge to hire divers to hand harvest another invasive, the water chestnut, that has been discovered in the outlet of the Bowl. If left untreated, this species will form dense floating mats that disrupt aquatic ecosystems as well as cause problems for boaters and swimmers. We will continue to monitor this plant to make sure it does not become a problem for the rest of the Bowl.

Unfortunately, invasive plants are not only limited to the lake. The SBA will also turn its attention to the kiwi vines and barberry plants that threaten Bullard Woods while we continue to maintain the trails and bridges that allow hikers to access and enjoy the woods.

The SBA continues to be an active participant in the Stockbridge Bowl Stewardship Commission as the group strives to create a lake management plan, and we stand ready to assist the Town in its efforts to dredge the Bowl. The SBA has over \$1.5 million in funds that we raised for the dredging project. If necessary, we are prepared to try to raise additional monies after the Town has finalized the plan, the cost, and the amount of money the Town will commit to the project.

New President of the Stockbridge Bowl Association, Pat Kennelly

The SBA welcomes its new president, Pat Kennelly, who brings a wealth of knowledge to the job, from both her professional life and experience on the board.

A retired executive with over twenty-five years of management experience in marketing, operations, and finance, Pat served for fifteen years on the board of The Land Conservancy of New Jersey. She held positions including Treasurer and Vice-Chairman and chaired various committees that successfully worked to achieve the organization's national accreditation. She is now a Trustee Emeritus.

Pat joined the SBA board in 2013, when she first became the organization representative for the Beachwood community. She took on the task of chairing the Weeds Committee and gained enough scientific expertise to write about Stockbridge Bowl's weed problems and give a presentation at the Mount in 2014.

In 2016, she became Membership Chair, doubling the funds raised by SBA solicitations. Pat has worked on the Capital Campaign and is also a member of the SBA's executive committee.

Pat has enthusiastically embraced the challenge of her new position, and she has expressed her desire as follows: "I want to lead the organization to help it continue to fulfill its mission of stewardship of the Bowl, Bullard Woods, and Kwuniikwat Island, and wherever possible to collaborate with the Town of Stockbridge and local organizations in these efforts."

Outgoing SBA President, Richard Seltzer, passes the gavel to incoming President, Pat Kennelly at the SBA's Annual Meeting, August 7, 2021.

Stockbridge Library

The first of the Summer 2022 activities celebrating the SBA's 75th Anniversary was a one-hour program on June 25th at the Stockbridge Library in conjunction with the exhibit, "Celebrating Stockbridge Bowl Over the Years." The exhibit, in the Bement Room of the Library, was created by Lorraine Abraham, Mahkeenac Heights representative to the SBA, with the assistance of Board members Patti Klein and Marie Raftery (and many other contributors of photos, maps and objects). Also participating in the planning were Peggy Reiser and Izzi Abrams.

Special thanks go first and foremost to the Stockbridge Library Director, Wendy Pearson, the Stockbridge Library Museum and Archives Curator, India Spark, and Assistant Curator and Genealogist, Joshua Hall. We are grateful to them for the many ways in which they helped to make this exhibit possible, as well as to all those who have provided us with photographs and reminiscences.

The program included an introduction by President Pat Kennelly, a brief talk by Lorraine Abraham, and a chance for attendees to speak with contributors, all of whom were invited to be present during that hour.

Information about individual items will accompany the exhibit, which will be available at the Stockbridge Library during regular library hours through September 6, 2022, the end of the Labor Day weekend.

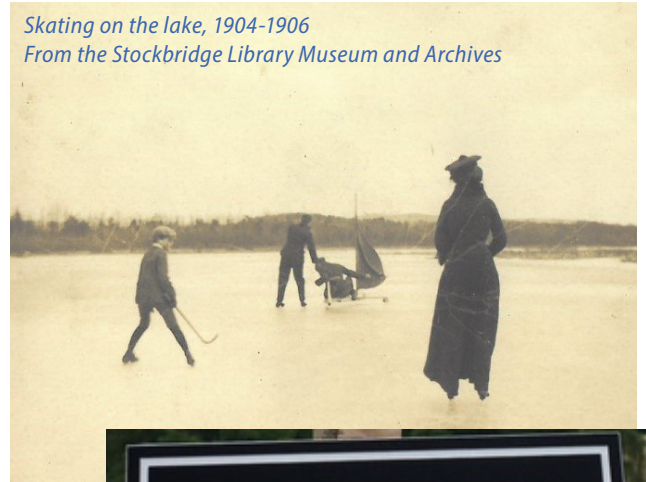

Stockbridge Town Beach

Please join in as the SBA anniversary celebration continues at the Stockbridge Town Beach on July 16. Activities will include music, kids' games, decorating a canoe with personalized art and graffiti, and a boat parade. Hop on one of the pontoon boat shuttles to Kwuniikwat Island to hear Stockbridge's own Terry A La Berry lead a drum circle. All this and snacks too! The fun runs from 10 a.m. to 1 p.m. Hope to see you there!

Bullard Woods

On August 14, the SBA will be hosting a guided tour of Bullard Woods by a master in tree and forest knowledge, Bob Leverett, and hopefully his wife, Monica. In addition, there will be a tree planting ceremony for two trees, the first, in honor of the medical professionals, first responders, and essential workers who have guided and supported us through the pandemic, and the second, in honor of the selfless service of the Stockbridge agencies and individuals who have faithfully stewarded the preservation and health of the land upon which we walk.

*Skating on the lake, 1904-1906
From the Stockbridge Library Museum and Archives*

Report from the Lake Committee

Gary Kleiner*man*, *Town of Stockbridge Harbormaster, Chairman, Town of Stockbridge Zebra Mussel Committee*

Harbormaster: At the end of last year, some new markers were put in the lake to designate no-cut areas. The areas are near Tanglewood beach, the western shore north of Kwuniikwat Island, and from the Town Beach to Beachwood. These markers have red caps. Also new last year were three 6 MPH markers in the channel to deter power boats from speeding in that area.

The speed limit on the lake is 40 MPH outside the markers and 6 MPH inside the markers. Any swimmer outside the markers should be accompanied by a boat or have a swimmer's marker which looks like a football and is easily seen from a distance.

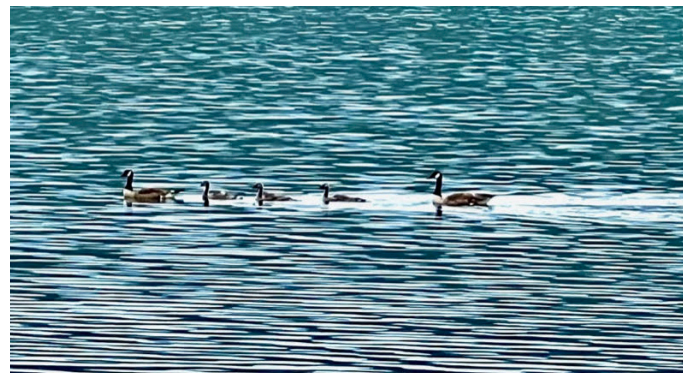

The speed limit on the lake from sunset until 10 a.m. is 6 MPH.

The docks at Bullard Woods and Kwuniikwat Island are out and ready for use.

Invasive Species Inspection: The Zebra Mussel inspection station has been open since May 27 and will remain open through the Columbus Day weekend. If your boat or a guest's has been in any suspect waters, please take the boat to the ramp and have it washed. We have thus far been Zebra Mussel free and would like to keep it that way. If you park your car at the ramp make sure to leave a clean boat certificate on your dashboard.

Boat Ramp: Last year the head of the state Public Access Commission had a meeting with us, and we made some suggestions to improve the ramp. These improvements hopefully will be made, probably next year. Paving, run off control, fixing shore erosion and ramp extension are some of the topics addressed.

If anyone has questions or needs help, please feel free to call me or email: GaryK1sxa@gmail.com or 413.441.6244

Family of geese obey the speed limit of 6 MPH

Happy Trails and Tails

Kevin (Moose) Foran, *Chair, Property and Trails*

It's no surprise that more and more people are spiritually rehydrating themselves in nature's cathedral of forests sprinkled throughout the Berkshires and beyond. A little pencil dot of forest, Bullard Woods, is just one of the earth's chapels in the Stockbridge community that we all can enjoy.

Of the 55 acres owned by the SBA, a small 4-5-acre parcel of old growth trees remains, exemplifying its diversity and kinship with the old growth forest in Ice Glen. The ecosystems of the forests are deeply connected. A system of communications within forests can be explained scientifically by experts in the field.

Stockbridge is fortunate to have gifted, dedicated community members serving through committees and commissions that selflessly steward those ecosystems so important to preserving the forests and meadows.

Ben Franklin once said I give you a republic if you can keep it. Perhaps our creator added: I give you a planet if you can keep it. It's rare to come across a person hiking in Bullard who doesn't have a smile on his or her face or an air of peacefulness. There are also a lot of happy tails, and some seem to be wagging their owners.

The overall health of the woods is good, although through the forests' cycle of life, frequent strong winds have taken some trees from us. Those of us in a small Bullard Brigade have been kept busy doing some basic maintenance work on the road and trails to the lake.

A shout out goes to Kripalu for lending staff and machinery in support of our efforts and to Gary Johnson for his once-a-year field mowing.

*New two-meadow connector at Bullard,
Head carpenter, Gary Kleinerman*

Photo by Pat Kennelly

Crew Team

Cris Raymond, *Emeritus Director*

Stockbridge Bowl has played an important role in many lives, and none more so than in the lives of the Lenox High School Crew Team. Originally, the team was formed at Berkshire Country Day School in 2000. Lenox Memorial High School took over in 2002. Rowing is a physically demanding sport that requires excellent conditioning. The team competes in the fall season under the direction of Joan Schultz, who oversees the training and arranges the meets.

Participation is open to all students grades 7-12.

When one thinks of crew, a picture of young men comes to mind. That is not the case with the Lenox team. Young women are participants too. During one fall season there was only one fellow in the group. That not only worked out well for the team; it greatly increased the social life of the young man!!

The crew team would not be possible without the aid of Kripalu. The eight boats and equipment are all stored at the Kripalu shoreline. Swim tests and water safety are an important part of the training.

It is not just the crew members who enjoy the lake. Many of the parents take an active interest in their children's sport. A day of training can begin at 7:00 a.m. and end so that the crew members can be home by 5:00 p.m. Parents often come by with food and set up a grill. Do not be surprised when you see these rowers on the lake. They will be part of the SBA's 75th anniversary celebration.

Lenox Monument Crew

Stockbridge Bowl Stewardship Commission

Michael Nathan, *SBA Representative to the SBSC*

The SBSC has covered a lot of ground this past year.

Topics discussed included:

- Dredging
- Aquatic plant control (*with herbicides or harvesting*)
- Cyanobacteria
- Habitat protection
- Invasives
- Nutrient load and source
- Thermal imaging
- Emergency response plan
- Septic issues impacting the Bowl

The state's Natural Heritage and Endangered Species Program (NHESP) asked the SBSC to develop a lake management plan (LMP). The LMP that is in the works reflects SBSC's priorities and time line. It will be written up by our consultant, GZA.

SBSC divided the list into top priorities, ongoing tasks, and reaction to Bowl emergencies, voting unanimously to make dredging the outlet and surrounding areas that are silting up a top priority for the health of the Bowl.

Other areas of interest for the LMP are a catalogue of species; the impact on quality of water from storms, sediment, nutrients, and salt from roads; bacteria (province of Tri-Town Health); best management practices; continued employment of Tom Coote; and inflow from run-off.

The SBSC is also concerned about harvesting this season, especially since the harvester is now allowed only in pre-assigned areas of the lake. We await the results of the SBA's milfoil survey, which will affect decisions regarding potential overlap of tasks, specifically the timing of herbicide use, dredging and harvesting.

Gary Kleiner and Mike Buffoni reported to the SBSC on the zebra mussels checkpoint and the funding now in place for the 2022 summer season. The SBSC has also conducted water testing in Stockbridge Bowl under the supervision of Mike Buffoni.

Data was collected with a sonde (underwater probe) that was dropped from top to bottom in the deepest part of the lake to monitor seven parameters at one-meter increments. Additional testing has been done to assess pH, depth, dissolved oxygen, oxygen reduction potential, temperature, turbidity, specific conductance, and oxygen saturation percentage. Thirty-five water samples were also taken at the tributaries and at specific depths in the water column in the middle of the lake. These samples are analyzed for a multitude of parameters.

In light of the request by the Lake Drive Association for town sewer services to reach its 28 homes on Bowl, John Liodice reported on the topic of extending the Town sewer, especially to houses on the lake. No decision can be made, though, until maintenance and repairs to the Town sewer and water are done.

Special thanks are due to Jamie Minacci, who has served as chair, and to Roxanne McCaffrey for setting up the commission and putting the LMP in motion.

The SBSC members I serve with who take so seriously the health of Stockbridge Bowl also deserve thanks:

- Jamie Minacci, Chair – Conservation Committee
- Roxanne McCaffrey – Stockbridge Select Board
- Michael Buffoni – Stockbridge Water Dept.
- Charles Kenny – Board of Health
- John Lodice – Water and Sewer Commission
- Jim Wilusz – Tri-town Health Dept.
- Gary Kleiner – Stockbridge Bowl Harbor Master
- Gary Johnston – Stockbridge Sportsman Club

Mirror, mirror...

Joanna Wolff

We are truly saddened to inform you of the passing of our dear friend, neighbor, and SBA board member, Joanna Wolff. Joanna, a resident of the Beachwood community, cherished her time in the Berkshires.

She loved taking long hikes through Bullard Woods and the beautiful Berkshires' trails with her husband Scott, children Lily and Matthew, dogs Chip and Taz, and her many good friends. She also loved spending days boating, kayaking, and wake surfing on Stockbridge Bowl and nights listening to music on the Tanglewood lawn.

Her commitment to the Berkshires was evident through her hard work and dedication on the SBA board and her friendships with so many in the Berkshires community.

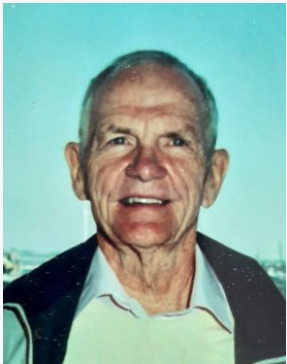

Joanna was deeply committed to her family, her friends, and to giving back to both her Berkshires and Mamaroneck, NY communities. Joanna was a truly special person and friend who will be greatly missed.

Donations can be made to the Joanna Wolff Scholarship Fund at the [Mamaroneck-Larchmont Student Aid Fund](https://www.mlsaf.org), <https://www.mlsaf.org>, and to the Stockbridge Bowl Association, <https://www.thesba.org/support> to honor her memory.

David Brause, Joanna Wolff, Scott Schneiderman

Don Deno

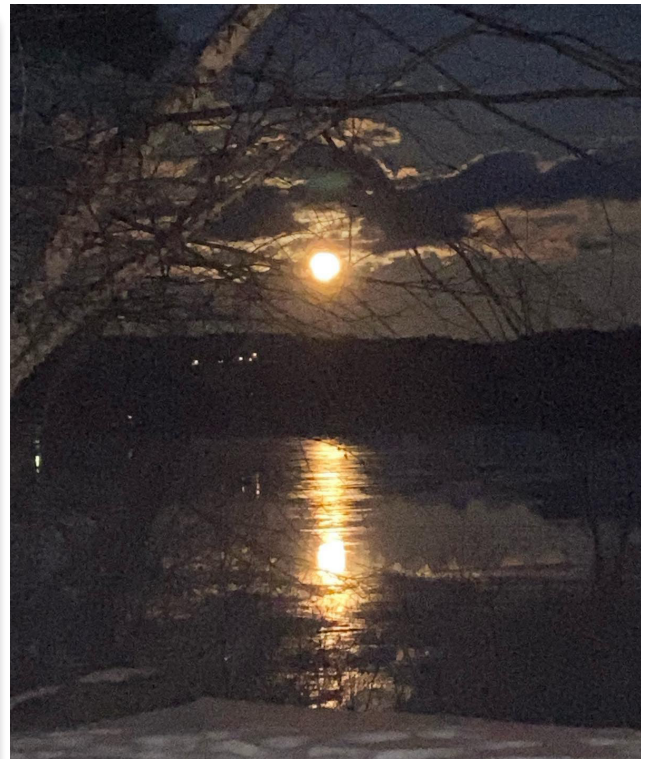

Don Deno

Don Deno was a very active and longtime member of the SBA Board of Directors. He was on the town Conservation Commission and was involved with water testing and other important lake matters.

He also frequently opened up his home for board meetings and loved hosting evening gatherings to the delight of his many friends, and the consternation of a few of his neighbors.

Don and his wife Chris sold their home, located at the lake off Rte. 183, and moved to Florida.

He always kept an interest in the Bowl and occasionally came back to visit. He shall long be remembered and often thought of by all who knew and worked with him.

Neighborhood News

Beachwood

Beachwood is continuing to enjoy vitality through the welcoming of new neighbors and the renewal of some of the original cottages. The enduring quality that brings its residents, both new and old, back each year is its sense of community and its enduring continuity. This especially comes to life at the Grove where Beachwood neighbors gather for association meetings, pot luck supper and campfire, weekly yoga, kayak launching, swimming and sunset gazing, and reconnecting anew. Monthly book club meetings, a women's luncheon, and the new "Groovin' in the Grove" summer concert series add a vigorous infusion of spirit and togetherness to make that Beachwood magic happen each year.

Beachwood has a strong interest in fostering and maintaining the health of the Bowl. In the coming years, the community will continue to bring its passion, knowledge, and support for ongoing efforts to meet that goal. — *Stuart Yurman*

Camp Mah-Kee-Nac at 90

"Make Your Summer Extraordinary" is the charge as the Camp Mah-Kee-Nac community converges on our beautiful property in the coming weeks. Summer 2022 marks a return to many of the special programming components that make sleepaway camp unique, but the appreciation for our position on the Bowl has never been greater. Campers and staff are eager to return to days when they could sail, ski, kayak, and play. In addition to the exciting activities on the lake, a new High Ropes Climbing Tower and Zipline were recently built on our Adventure course, and it is with great excitement that we open two new buildings that have breathtaking views of Stockbridge Bowl. When the camp season comes to a close each summer, we always say, "We can't wait to see you again...by that same beautiful lake." Make your summer extraordinary, because we certainly will!

— *Jamie Chadwin, Owner/Director*

Kripalu

At Kripalu, we are celebrating our 50th year as the leader in yoga and mindfulness! Our mission, to serve individuals and communities so they can realize their full potential through the wisdom and practice of yoga, is more relevant than ever in today's challenging world. Berkshire residents can now enjoy even more savings on our restorative programs, delicious food, and beautiful grounds through the expansion of our popular Berkshire Day offering.

Locals who live within 45 miles of Kripalu can now save 40% on day passes on Wednesdays and Thursdays. For \$75, enjoy a full day of yoga and workshops, three delicious meals from the Kripalu Kitchen, and our grounds, with additional discounts on Healing Arts Services and in our shop. We look forward to seeing you on campus! Learn more at [Kripalu.org](https://www.kripalu.org). — *Tracy Williams, Senior Marketing Director, Kripalu*; *Keven (Moose) Foran is the Kripalu representative to the SBA*

Lake Drive

The Lake Drive Association (LDA) annual meeting was held on Zoom. Afterwards, we enjoyed an in-person gathering outdoors. Inclement weather continues to challenge our road crew. After the record-setting rainfall in July, 2021, we brought in 43 loads of road material, the largest investment in our roads that anyone can remember. The work has held up well even with several homes under construction.

The LDA community is primarily behind the island on the outlet. It's quiet and pristine but the buildup of silt and weeds continue to choke our docks and easements. We are committed to the restoration of the outlet and we hope that dredging is on the horizon.—*Laura Beasley, LDA President (SBA representative is Bill Koff)*

Laurel Hill Association

The Laurel Hill Association (LHA), with holdings of 460 acres of land in Stockbridge, recently completed major upgrades of its signature property, Laurel Hill Park, to restore its early design and enhance its functionality as a meeting place. Upcoming is revitalization of LHA's long-dormant Upper Bowker's Woods property, across Route 183 from the Norman Rockwell Museum. New trails, parking, and signage are planned.

Laurel Hill's major event for 2022 will be Laurel Hill Day on August 27. This year, LHA will join national celebrations of Frederick Law Olmsted's 200th birthday. The pioneer of American landscape architecture, Olmsted designed parks and scenic settings throughout the United States and in the Berkshires.

Laurel Hill President, Hilary Somers Deely, has announced that Anne (Dede) Petri, the President of the National Association of Olmsted Parks, will be the keynote speaker. The weekend activities will include a panel discussion, "Olmsted in the Berkshires," Friday, August 26, at 5:30 p.m. in the Stockbridge Library. Saturday morning will bring a bundle of activities for children, including games and other entertainment. The main event will begin at Laurel Hill Park at 2:00 p.m., rain or shine.

"Olmsted's vision for landscape design can be seen throughout the Berkshires," said Deely. "Signature properties such as Wheatleigh in Stockbridge, Elm Court in Lenox, parks from the city of Dalton southward, all bear the Olmsted stamp." — *Lee Bolman*

Mahkeenac Boating Club

Mahkeenac Boating Club members eagerly await the club's 132nd season on the Stockbridge Bowl. The club officially opens in mid-June, but in May, an intrepid few have been swimming, rowing, and paddle boarding. Soon, we will resume our traditions of Saturday lunches, midweek grill nights, sunny days on the dock, and spirited ping-pong matches. Our aging, but fully lake-worthy fleet of Cape Cod Mercuries will soon sale the lake with students, racers, and pleasure sailors.

Over the last two summers, Covid cut back on social and indoor activity, but we managed well on our docks, on the lake, and in the fresh air.

Club membership is at capacity. We continue to see as many as four generations of families on Saturday afternoons. Largely, the club remains very much as it has since its beginnings, banning cellphones and continuing a tradition of rustic simplicity in an idyllic setting. Changes are few, save for maintenance and upgrades. The club is a welcome oasis in an otherwise complicated world. — *James Brooke*

Mahkeenac Shores

It has been a relatively quiet winter at the Shores. Sadly, we lost Marion Lipson last Fall. She was longtime member of this community and thankfully her children are still active members here with us. Mary Lou and Russ Glazer have been our full-time residents over the winter. Construction continues at #20 at a slow pace. A large house is replacing a modest cottage, as is happening all around Stockbridge Bowl. We're looking forward, with fingers crossed, to a more normal summer here at the Shores. — *William Loutrel*

Mahkeenac Terrace

Mahkeenac Terrace residents continue to enjoy the beauty of the Bowl and the great gifts of the environment we live in. After enjoying a beautiful winter (*see photo to the right*), the residents of Mahkeenac Terrace are excited to revel once again in a gorgeous summer on the Bowl, listening to beautiful music drifting in from Tanglewood, and cheers from campers at Camp Mah-Kee-Nac, as well as watching for the majestic bald eagles perched on our trees.

Our Association is led by our President, Matt Deres, Vice President Louis Korman, Treasurer William Bakke, and Secretary Peter Kaim. Many of our residents have completed home renovations, and the neighborhood is really looking great! We welcome the Brown family who moved into the Terrace. We look forward to upgrading the steps to our South Beach and docks.

Our community is committed to the restoration of the Bowl and the environs to good ecologic health. We are all so lucky to be able to live in such a special place. — *David Brause*

White Pines

The dock is in place, those with winter homes have returned to the Berkshires, and everyone is ready for summer. There are 68 units at White Pines - houses, apartments, and townhouses. At present, eight families are year-round residents. In the past five years, there has been a great deal of turnover, and our demographics have changed. The White Pines population has gotten younger, and we now have two families with very young children.

Our social action committee is planning summer get-togethers so that neighbors can meet each other. Committees have been meeting, and there are plans to improve the amenities at our beach and possibly convert a space into a community room. Our system for pool, workout, and tennis sign-ups is working well. In all, things at White Pines are running smoothly, and we feel lucky to live in our community. — *Anne Wichman*

New SBA Board Members 2022-2023

Phyllis (Patti) Klein, *Chair, Governance Committee*

Emeritus Board member, Peggy Reiser, served as Acting Nominating Committee Chair to prepare the slate for the 2021 Annual Meeting elections, with great appreciation from Patti Klein, Governance/Nominating Committee Chair. The Nominating Committee met seven times, mostly after Richard Seltzer, President of the SBA, announced in April 2021 his intention to resign as president effective at the 2021 Annual Meeting, feeling that in his ten years in office, he had accomplished what he could. The Board thanked him for his many years of dedicated service to the SBA.

The committee reviewed candidates for the balance of the president's term as well as other open positions on the board. Approximately 20 potential candidates were considered. There were six open positions for Individual Directors: five three-year seats in the Class of 2024 and one two-year term (Class of 2023). Four board members stood for re-election for three-year terms: Joan Cohen, Ira Golub, Patti Klein, and Joanna Wolff (see In Memoriam), leaving one opening, to which Pat Kennelly was elected. The single two-year term (Class of 2023) remained open.

At the August 2021 Annual Meeting, the nominee for the presidency proposed by the Board was Pat Kennelly, the Organization Representative for Beachwood, who was elected to the one year left from Richard Seltzer's term at the August 2021 Annual Meeting.

Although an Organization Representative is not precluded from becoming an officer by the SBA's By-Laws, Pat requested that she be nominated as an Individual Director. As a result, only one Individual Director position was then left unfilled.

The decision was made to leave that position open to allow the potential for a board member to be added during the year if an appropriate candidate was found. Because a number of the wonderfully qualified potential board members reviewed indicated that though not available in August 2021, they could be in the near future.

There were four Organization Directors whose terms were expiring in 2021. All the organizations chose to remain on the board, three with the representatives then in place: Canyon Ranch, Kripalu, and Lake Drive Association. Subsequent to the August 2021 elections, Beachwood named Stuart Yurman (see biography below) as its new representative when Pat Kennelly was elected as SBA President, and in the late spring of 2022, the Mahkeenac Boating Club notified us that Will Laidlaw was replaced as its SBA representative by James (Jim) Brooke. See biography below.

The terms of three officers were scheduled to expire in 2021: Vice-president (Patti Klein), Treasurer (Richard Gerszberg), and Secretary (Laurie Dubner). All officers filling terms that were expiring agreed to stand for reelection and were nominated by the Board. This was especially important for the position of Treasurer, as good governance practices dictate that the president and treasurer of an organization NOT be elected at the same time.

When President Richard Seltzer notified the SBA in April that he intended to step down from his position, the Nominating Committee looked to find a one-year president to maintain the separate term-ending dates for President and Treasurer; hence the new President, Pat Kennelly, was elected for only one year, to complete Richard Seltzer's term. Since Richard Gerszberg was continuing in his prior position as Treasurer, we did not have two new individuals serving as President and Treasurer.

The Slate was approved at the Annual Meeting of the Membership in August, at which the membership elected all nominees.

As noted every year, we are grateful to our volunteer board members for their service to the SBA, which depends on them for providing the "people power" for the many projects we pursue in our efforts to protect the Stockbridge Bowl and preserve it for the future. We are always in need of helping hands and new ideas.

We welcome our new President and our new board members:

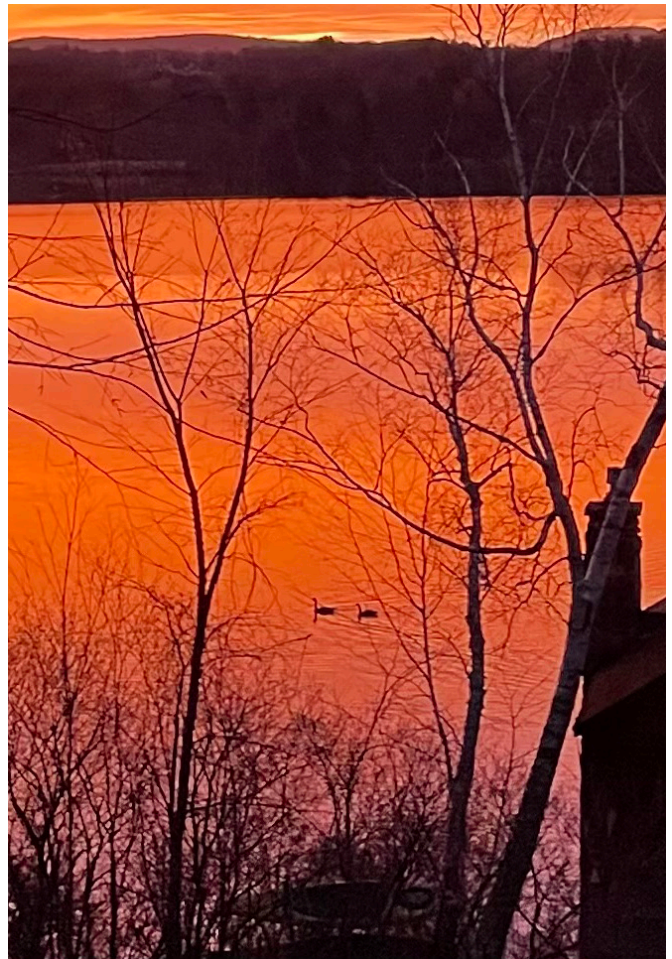

Pat Kennelly (President): Although Pat has been the Beachwood representative for many years, we thought it appropriate to "reintroduce" her in her new role as President.

Our new board Organization Representatives:

Stuart Yurman (Beachwood): Stuart retired from his New York dental practice of 40 years and moved full time to his Beachwood home with his wife, Paula, in 2021. His retirement was short-lived, as he is now in private practice in Lee, as well as volunteering at Volunteers in Medicine (VIM) in Great Barrington. He has paddled, peddled, sailed, motored, and swum in the Stockbridge Bowl for 45 years. He knows where virtually all the rocks and weeds are located but is still looking for his favorite sunglasses that fell in three years ago. He is happy to share his love for the lake in his role as the Beachwood representative to the SBA board.

Jim Brooke (Mahkeenac Boating Club): From the main dock of the Mahkeenac Boating Club, Jim Brooke grew up swimming, sailing, canoeing, and kayaking on the Bowl. After college, Jim wandered the world, reporting from 80 countries, largely for The New York Times. Last fall, Jim moved home to Lenox, leaving Kyiv, Ukraine after six years, largely due to the worsening security situation. Jim's six-year-old son George likes swimming in the Bowl but says the weeds are "gross."

Membership

Pat Kennelly, Membership Chair

Listed below, and continued on the next page are the names of those who have supported the SBA from June 1, 2021 through May 31, 2022. If your name appears below, thank you for your support of the stewardship of the lake. Your membership dollars support monitoring the lake's water quality; managing our 55 acres of Bullard woods, including the grooming of hiking trails and removal of invasive plant species; maintenance of Kwuniikwat Island; hosting the SBA Annual Meeting; and publishing this newsletter!

Eagle: \$1,000+

Start with a Smile!

Did you know that by shopping at Amazon, you can support the SBA?

Go to smile.amazon.com and select "Stockbridge Bowl Association" as your charity-of-choice. Amazon always will recall your preferred charity choice.

Shop as you would normally, and the Amazon Smile Foundation will automatically donate 0.5% of your purchase price to the SBA! It's easy to do and it's free, so please remember the SBA when you shop, and don't forget to start with a smile!

STOCKBRIDGE BOWL ASSOCIATION

Stockbridge Bowl Association
P.O. Box 118
Stockbridge, MA 01262

2022 Membership

Membership in the Stockbridge Bowl Association is open to any individual, family, or organization wishing to preserve and protect the lake.

You may become a member by logging on to the SBA website under *Support* where you can fill out the form on line or print: <https://thesba.org/support/>
